

FOR CARLOS

Re-Record Outlines

Clean, tight scripts for your QuickTime refilms.

Tu evento, tu marca, hecho bien.

Promo & Grow · Updated June 2026

Updated: June 6, 2026 · pairs with the matching SOP for each.

Universal rules (apply to every video)

- **Keep it 2–4 minutes.** One task per video. If it runs long, split it.
- **Say the goal in the first 10 seconds:** "In this video you'll learn how to ____."
- **Narrate what you click** ("I'm going to Orders, then Drafts, then Create order").
- **End with a one-line recap** ("So that's how you ____").
- **On screen, hide:** vendor cost, passwords, and any other customer's private data. Blur or use a test record.
- **Re-record if you ramble** — these replace messy first takes, so trim the "umms."

⚠ **Confidentiality split:** Videos **1–3** are your **internal pricing engine** ("top-down," not for entry-level reps). Keep those private **or** record a separate Venus-facing version that quotes from the **Master Price Sheet without showing 4over cost**. Videos **4–10** are **Venus-facing** operational SOPs.

Video 1 — Quoting from the Price Sheet (Business Cards) → SOP-01

Two versions: – **Internal (keep private):** how you build a business-card price in 4over — 16PT, matte, 4/4 → cost → ×5 markup → round (1,000 → \$108). This reveals cost; do not share. – **Venus-facing (record this one for her):** 1. Goal: "How to quote business cards." 2. Open the **Master Price Sheet** → Business Cards ladder. 3. Explain the default: **16PT, matte, double-sided (4/4)** = 95% of orders. 4. Read a price: "1,000 cards = \$108." Mention **spot UV** as an upsell. 5. Note turnaround: **~4 business days**. 6. Recap: "On the sheet → quote it. Not on the sheet → ask me." (~2 min, no cost shown.)

Video 2 — Quoting Postcards (Master Price List) → SOP-01

Venus-facing version: 1. Goal: "How to quote postcards." 2. Master Price Sheet → Postcards table (4x6 / 5x7 / 5.5x8.5). 3. Key point: **16PT**, gloss; single vs double-sided ≈ same price → **always quote double-sided**. 4. Read one price per size. 5. Recap. (~2 min.)

Video 3 — Brochures: Options, Coatings & Turnaround → SOP-01

Venus-facing version: 1. Goal: "How to quote flyers & brochures." 2. Standard = **8.5x11 all-inclusive, aqueous coating** (subtle gloss), **folding included** (trifold/half). 3. Turnaround **~3 days**. 4. Read the price ladder. 5. Honest positioning: pricier than online template shops, but **free proof + a real person + speed**. 6. Recap. (~2–3 min.)

✓ **DONE (June 2026):** Videos 4–9 were re-recorded as one continuous **Master Order Walkthrough** → <https://www.loom.com/share/56e325c52157470cb9008f1a29dbc9e9> — it flowed better as a single video. The per-video outlines below are kept for reference and future re-records.

Video 4 — Create a Draft Order (catalog product) → SOP-02

1. Goal: "How to build a draft order for a catalog product."
2. **Orders → Drafts → Create order.**
3. **Add product** → search "tent" → pick the **10x10**.
4. Show choosing the exact combo: remove the default, scroll to the right line (reinforcement color, thread, bag, wall config). Land on **Complete Set**.
5. Note: the customer-facing site builds this for them; on admin you pick the line item.
6. Recap: "Draft → Create order → add product → pick the exact combo." (~3 min.)

Video 5 — Add a Custom Item + Send → SOP-02

1. Goal: "How to add a custom item and send the invoice."
2. In the draft, **Add custom item**: name it "16PT Business Card — 4/4 — 1,000."
3. Show the **price-per-unit** step: total ÷ qty (1,000 @ \$108 → enter accordingly).
4. Add shipping (note **\$500+ = free ground**; ~\$30 ground otherwise).
5. **Save → Send invoice.**
6. Recap. (~3 min.)

Video 6 — Add / Find a Client → SOP-03

1. Goal: "How to attach the customer."
2. **Search** existing by name/email/phone → select → info populates → fix anything missing (e.g. phone).
3. **New client**: name, email, phone.
4. **Marketing opt-in** (do it live): ask about text + email updates/offers → most say yes → that's consent.
5. **Address** auto-verify; add company; note receiver vs. payer.
6. Tags later, once working the client.
7. Recap. (~3 min.)

Video 7 — Draft the Invoice Email → SOP-04

1. Goal: "How to write the invoice email."
2. Send from your **personal email**; **CC** hello@promongrow.com (+ client's accounting if asked).
3. **Subject:** Promo Invoice D87 – Promo & Grow (formerly PrintCo Direct Inc.).
4. Show drafting with AI → personalize → warm, restate **free proof + 5-day**, nudge to checkout.
5. Recap. (~3 min.)

Video 8 — What the Customer Receives (Proof + Checkout) → SOP-05

1. Goal: "What your customer sees after you send it."
2. Show the email → click → **Shopify checkout** → phone verify → **Shop Pay** → shipping + tax shown.
3. The **free proof** before production; approval starts the 5-day clock.
4. Recap. (~2 min.)

Video 9 — Checkout Flow & Shipping Details → SOP-05

1. Goal: "Shipping rules + finishing checkout."
2. **\$500+ = free ground**, ~\$30 ground otherwise. Faster = custom/closing quote (confirm with Carlos).
3. Walk a customer through any checkout snag (resend link, phone verify).
4. Recap. (~2 min.)

Video 10 — Legacy Order Lookup in Ordant → SOP-06

1. Goal: "How to pull a returning client's last price + file."
2. **pcd.ordant.com** → order/job board → search client (e.g. "Nova Storage").
3. Show **last price charged** (the key number) + **order number** → **NAS file** (by year).
4. Note: **read-only / backup access** — build the new order in Shopify, not here.
5. Recap. (~2–3 min.)

After refilming, update the Loom/QuickTime links in `00-SOP-Index.md`. Throughline: one task per video, goal up front, hide cost/passwords, recap at the end.
