

HOW TO SELL

Bankers	Antique Dealers
Boutiques	High-end Restaurants
Upscale Salons	Luxury Real State Firms
Jewelers	Medical/Dental Providers
Investment Brokers	Aestheticians

Sales Scripts

Once you've identified ideal prospects for Majestic, you're ready to approach them. Here are a couple of ways to start the conversation about the value Majestic offers in building their business:

For an upsell where your customer in one of the verticals listed above is ordering standard business collateral or packaging, ask them if they've ever heard of Majestic.

Explain the value of brand perception and the role Majestic can play in creating the right image of a company that is legitimate and preferred. Show them the Majestic sample book and encourage them to feel the suede and silk business cards that extend brand experiences beyond just the visual. Mention the uniqueness of Majestic and how it can break through the typical collateral clutter to make a brand stand out quickly.

For a cross-sell, you are looking for customers in one of the verticals listed above who are ordering other Majestic products like business cards, flyers, brochures, signage, etc. Ask them if they understand the value

of a consistent look and feel across all of their brand collateral. Next, mention all the additional options that are available in the Majestic line to fulfill every collateral need. Finally, let them know about any "business bundles" (multi-product deals) you have created to maximize their savings and extend their budget.
